GIVING BACK THROUGH CONSERVATION:
**MICHIGAN SPORTSMEN
AGAINST HUNGER**

Since 1991, Michigan Sportsmen Against Hunger (MSAH) has served as a bridge between Michigan's hunting community and families in need. By coordinating donations of processed wild game—particularly venison—MSAH helps stock food pantries and shelters with high-protein, nutritious meals at no cost to recipients.

DID YOU KNOW?

MSAH receives no state funding from license purchases. Every effort is powered by tax-deductible donations from individuals, organizations, and local contributors. Funds go directly toward reimbursing deer processors and supporting outreach.

As a proud sponsor of MSAH, the SCI Detroit Chapter supports their mission of ensuring no harvest goes to waste. It's more than conservation—it's compassion in action.

Want to learn more or support their work? We've added a hot link to MSAH on our website—check it out and see how you can be part of the impact.
